TECHNICAL DATA SHEET

HB-106

LIQUID ALIVE BACTERIA

with Instant Odor Control

DESCRIPTION:

- Suspension treatment consisting of specially developed bacteria, aerobic, anaerobic, and facultative in nature.
- Harmless to animal and marine life and are non-pathogenic. They hate BOD and consequently HxS and the foul odor and gases it produces.
- Not only masks odors, it eliminates their causes.
- Cannot rest in the presence of organic waste materials, they must process it. Once their job is done, they immediately concentrate on building their colony population up to full strength, and then they go dormant. You might say they sleep with eyes open waiting for work. As soon as new waste comes into their presence, they swing into action. Anywhere in your plumbing system (elbows, bends, joints, and Q ups) where solid waste can accumulate--product can build a colony. As long as you continue to treat the colony, they will stay and keep working for you.

ADVANTAGE:

- Digests organic waste.
- Non acid or alkaline.
- Non toxic. Non pathogenic.
- Eliminates strong odor. Good initial odor control.
- Liquefies fats, proteins, carbohydrates, and grease.
- Reduces BOD and COD. Harmless to marine and animal life.
- Harmless to plants.
- Reduces aerobic and anaerobic enzyme strains.
- Easily applied.
- Excellent shelf life.
- Contains no additives, 100% effective.

AREAS OF USE:

Waste treatment plants
Lagoons and ponds
Grease traps
Port-a-toilets
Marine toilet tanks
Drain fields
Dry wells
Holding tanks
Industrial waste plants

Cattle and hog feed lots
Septic tanks
Drain lines and down pipes
RV toilet tanks
Cesspools
Sump pumps
Ponds
Sewage waste plants

AREAS OF USE, Continued

Recommended for:

Feed lots	Hog parlors
Stockyards	Pulp and <i>paper</i> mills
Dairy industries	Food processing plants
Ranches	Farms
Restaurants & cafeterias	Boats and marinas
Hospitals	Schools
Institutions	Municipalities
Industrial plants	Veterinarians
Commercial buildings	Hotel and motels
Public restrooms	Apartment complexes
Zoos	

GENERAL DESCRIPTION: A liquid bacteria with new odor control.

SAFETY:

Label use directions should be followed carefully. OSHA Material Safety Data Sheet available.

USAGE:

Consult label copy for full details on uses.

CAUTION:

- DO not store directly in sunlight.
- Keep container closed when not in use.
- Avoid exposure to water above 120° F.
- Avoid exposure to chlorinated products, disinfectants, and bleach.
