TECHNICAL DATA SHEET

HB-171

TRUCK & RIG SPRAY WASH

DESCRIPTION:

- The best synthetic detergent for heavy truck cleaning.
- Specifically designed for wand-type spray washing of trucks, rigs and 5th wheels.
- Cleans aluminum trailers safely and removes diesel smoke, road film, grease and dirt.
- Cuts truck washing time to a minimum and makes underneath maintenance needs easily visible.
- A biodegradable product.
- Authorized by the U.S.D.A.

DIRECTIONS FOR USE:

- Can be dissolved in water up to one pound per gallon for the preparation of the concentrate tank.
- Upper ranges of solubility will vary with the amount of dissolved solids in the local water and the temperature of the water.
- Recommended concentrations are from 1/2 to 3/4 pounds per gallon of water (227-340 grams per 3.785 liters).
- Adjust metering device to deliver the amount of concentrate tank solution desired – (usually at a rate of one to two pounds of detergent per 50 gallons) (24 kilograms detergent per kiloliter of final wash water), sprayed on the object to be cleaned.
- Amount metered will depend upon the amount of soil to be removed, the pressure used in the system and the nature of the dissolved solids in the local water

SAFETY:

Label use directions should be followed carefully. OSHA Material Safety Data Sheet available.
