TECHNICAL DATA SHEET

HB-244

HERCULES

Floor & Equipment Cleaner

DESCRIPTION:

- Super economical cleaning compound
- Clear, light brown liquid with a very slight detergent odor
- Synergistic cleaning compound which draws its strength from a variety of detergents, emulsifiers, cleaners, solvents and wetting agents
- Mild pH of 10.0 in the concentrate

ADVANTAGES:

- Very economical cleaning compound
- Nonflammable
- Mild on personnel, yet hard on grease, grime and dirt
- Versatile
- Safe for use on aluminum as well as most surfaces which water will not harm

APPLICATIONS:

- Multi-purpose cleaning agent with special application in pressure washing
- Excellent for truck washing as well as floor and equipment cleaning
- Can be applied on any surface where water is safely used - walls, floors, painted surfaces, etc.

DIRECTIONS FOR USE:

Normally applied through a pressure washer. It can also be sprayed, wiped or brushed on.

PRESSURE WASHING:

When used in high pressure equipment with direct chemical injection, HB-244 can be metered directly from its container at ratios of from 1:10 to 1:70. The ratio the machine is set on will depend on the water hardness, the type of soil being cleaned, and the surface being cleaned.

Continued on Page 2

PRESSURE WASHING, Continued:

The following are some recommended cleaning concentrations:

Trucks	Ratios of from 1:20 to 1:40
Aircraft	Ratios of from 1:15 to 1:40
Heavy Equipment	Ratios of from 1:10 to 1:25
Painted Walls	Ratios of from 1:25 to 1:70
Floors	Ratios of from 1:10 to 1:70

If used in equipment with a chemical concentrate tank, mix two to three gallons of Hercules to every five gallons of water. This mixture is then metered through the machine at ratios of from 1:10 to 1:30, depending on the cleaning requirements of the customer.

MANUAL CLEANING:

Light Cleaning	2-5 oz. per gallon of water
Medium to Heavy	5-10 oz. per gallon of water

SAFETY:

Label use directions should be followed carefully. OSHA Material Safety Data Sheet available.

PRECAUTIONS:

Concentrated HB-244 may cause eye or skin irritation. Avoid prolonged or repeated contact with concentrate. In case of eye contact, flush with large amounts of cool water. If irritation persists, seek medical attention. If swallowed give one or two glasses of water or milk. Call a physician immediately.
