TECHNICAL DATA SHEET

HB-70 GRIP Belt Dressing

DESCRIPTION:

- Penetrates belts to keep them flexible
- Prevents slipping to allow maximum equipment efficiency
- Collects less dust and dirt
- Will not harden and glaze
- Remains soft, retaining its pulling power long after application
- Will not cake or lump up on belt
- Will remove old accumulations from belt through continuous use
- Works equally well on V, flat rubber or all types of leather belting

TYPICAL APPLICATIONS:

For flat, round or V styles used on compressors, pumps, generators, fans, industrial equipment and automobile equipment.

AREAS OF USE:

Cars
Trucks
Forklifts

Motorcycles
Heavy
Equipment
Buses

PROPERTIES:

Form	Solvent Base Aerosol
Odor	Chlorinated Solvent
Color	Clear
Detergency	None
Toxicity	500ppm OSHA TLV
Wetting Ability	Dampens
Storage Stability	1 Year +
Cold Stability	0°F
Phosphates	None
Flash Point	None
Flame Extension	Less than 18"
Solubility in Water	0
% Volatile by Volume	40%
pH	None
Propellant	Hydrocarbon
Evaporation Rate	Rapid
Biodegradability	Yes

SAFETY:

Label use directions should be followed carefully. OSHA Material Safety Data Sheet available.

DIRECTIONS:

Spray back and forth across inner surface of the belt while running. Apply lightly until the entire working surface is treated. Repeat application periodically to maintain traction.

CAUTION:

Use in a well ventilated area. Contents under pressure. Do not puncture can. Do not throw empty can in fire or incinerator. Do not store in temperature that exceeds 120°F. Contains chlorinated solvents. If sprayed in eyes, flush with large amounts of water. Keep out of reach of children.

Authorization: USDA-H1
