TECHNICAL DATA SHEET

HB-94

COMMAND

Parts Washer Solvent

DESCRIPTION:

- Clear blue liquid with a pleasant solvent odor
- A blend of aliphatic and pine tar solvents coupled with select oils and penetrants to provide rapid cleaning and excellent solvency
- Flash point (T.C.C.) of 130°F
- 100% active solvent blend designed for use in cleaning grease, oil, and other common soils found on all automotive parts
- Specifically formulated for use with pump-type washers such as the H & B Industries LG-32 or STD-26 Parts Washer

ADVANTAGES:

- Penetrants give fast cleaning of all types of petroleum soils
- Cleans faster than straight kerosene, naphtha, or diesel fuel, leaving less residue
- Contains no emulsifiers to entrap incidental moisture and *reduce* solvency
- Is low odor to reduce worker aggravation
- Select oils give maximum worker comfort by reducing drying effects of solvent on skin
- Requires no time-consuming pre-mixing, thus reducing cost
- Is safe on all metals as it contains no acids or alkalis. Can be used safely on aluminum, brass, copper, and plated parts

AREAS OF USE:

Industrial repair shops	Machine shops	Factories
Truck shops	Auto service centers	Garages
Ideal compound for use in recirculating parts washer units		

USE OF PRODUCT:

- Ready-to-use straight from the drum
- Simply pour it into the fluid reservoir, and you are ready to go
- Good for use in manual washing operations
- May be applied by spray or brush for cleaning larger parts

CAUTION: Keep out of reach of children

Do not use or store near heat or open flame. Product contains petroleum solvents.

Flammable If swallowed - contact physician immediately DO NOT INDUCE VOMITING

Eye contacts - flush with clear water for 15 minutes Consult physician Keep container sealed when not in use Dispose of empty container in authorized landfill site.
