CRETE-CLEAN

Deluxe Concrete Cleaner

DESCRIPTION:

- A medium sudsing, completely water soluble, non-caustic, concentrated cleaner with penetrating pine oil for grease and dirt removal from concrete.
 - Can be used to clean and deodorize concrete in haul or soft water.
 - Designed to clean grease, soil and oil from concrete, loading docks, and garage floors.
 - A quality product that can be used in two ways:
1. Mix the compound in solution and mop or scrub.

2. Wet down the area to be cleaned, sprinkle the compound on the surface and scrub into solution. **DO NOT USE ON PAINTED CONCRETE!** (There are some paints that will be stripped by this wash solution.) **SAFETY:**

DIRECTIONS:

1. Mix a solution varying in strength from 2 oz. per gallon to 8 oz. per gallon (16 to 50 grams per liter) of water depending on the cleaning needed. Use this solution to mop or scrub the concrete.
2. For satisfactory results it is recommended that the area be cleaned thoroughly, wetted down, the compound sprinkled over the surface, and the concrete scrubbed with a plastic or steel bristle brush. Small amounts of water should be added to the surface during the scrubbing action, and the compound should be worked into a solution. Allow the solution to remain on the concrete for 10 to 30 minutes. If possible, reactivate with water, scrub heavily soiled areas again and rinse clean.

Authorized by the U.S.D.A. for use in federally inspected meat and poultry plants.
