TECHNICAL DATA SHEET

M-1000H

Biological Waste Digestant For Contaminated Waste

DESCRIPTION:

- Natural bacteria developed specifically to supply safe, simple remedies for the clean-up of contaminated soils and groundwater
- Adds a second army of microbes to the area
- Non-pathogenic
- Non-toxic
- Non-chemical
- Extra-strength bacteria provide...
 - Faster remediation
 - Thorough degradation
 - Anaerobic capacity
 - Better activity
 - Multiple bacteria capability
 - Cost-effective
 - Easy to apply
 - Withstands most bio-toxins and chemicals

EFFECTIVE ON:

Effective for contaminated waste on land farms, bio-piles, shops drains, grease traps, pump and treat scenarios, and more. Works well as an augmentation to other methods or as a stand-alone solution.

APPLICATION:

Applying microbes and nutrients is simple. No need for special equipment or handling.

TYPICAL PROPERTIES:

Appearance	Light pink to tan liquid
Odor	Moderate
Density	8 lbs per gallon
Flash Point	None
Shelf Live	6-12 months at 13-32° C
Handling	No special handling required, gloves and goggles suggested
Disposal	Flush with clean water
Hazards	None
Water Soluble	Yes

SAFETY: Natural, non-pathogenic, non-engineered biological product that meets EPA requirements for release into the environment. Routine hygiene should be observed.
