TECHNICAL DATA SHEET

MEGA-BAC X'

Biological Waste Digestant

DESCRIPTION:

- Proprietary combination of specially-selected, naturally-occurring bacteria
- Accelerates biodegradation of wastes
- For use in grease traps, food processing plants and lagoons, septic tanks, and agricultural waste collection systems
- Effective on unsaturated fat, oil, milk, starch, protein, and other biologically-derived waste
- Metabolic processes produce enzymes that break down targeted wastes
- Ready-to-use liquid formulation

APPLICATION:

- Can be applied manually or by feed pumps
- Performs within a pH range of 5 to 9, with best activity at a pH of 7
- Temperature range for treatment is 50°F to 110°F (10°C to 45°C)

TYPICAL PHYSICAL PROPERTIES:

Color	light pink to tan
pH	6.5-8
Weight per gallon	8.51 lbs
Specific gravity	1.02
Freeze point	1.30 cps – 50°F

SAFETY:

- Natural, non-pathogenic, non-engineered biological product that meets EPA requirements for release into the environment
- Approved for use in facilities regulated by the USDA.
- Special clothing or equipment are not required for handling
- Routine hygiene should be observed
